

First Insight Intros MaximEyes Releases ICD Code Selection Tool

By [Staff](#)

Thursday, March 26, 2015 12:15 AM

Product: ICD Code Selection Tool

Top Line: First Insight Corporation, developers of MaximEyes Practice Management and Certified EHR software for eye care professionals, is now ICD-10 compliant. To help practices can plan ahead and be compliant by the October 1, 2015 deadline, the company is offering an ICD Code Selection Tool.

Close Up: MaximEyes is available on a private, secure cloud or local server configuration. “We’ve made it easy for doctors and staff with our intuitive embedded ICD-10 Selection Tool that provides dynamic search capabilities for both ICD-9 and ICD-10 codes, and unifies the code selection process,” said Nitin Rai, President and CEO of First Insight Corporation. “As you search for new practice management and EHR software, making sure your software is ICD-10 ready now gives you and your staff plenty of time to prepare.”
