For Immediate Release

MaximEyes EHR simplifies incentive program compliance with built-in MIPS calculators, measure indicators and automated reporting

Hillsboro, OR (April 25, 2017) – First Insight Corporation, developers of certified MaximEyes EHR software for optometrists and ophthalmologists, released new built-in Merit-Based Incentive Payment System (MIPS) calculators, measure indicators and automated reporting that comply with MACRA reporting requirements.

"Our MIPS tools are just one way we're helping our customers keep their eye care practice compliant with quality reporting and incentive programs," said Nitin Rai, President and CEO of First Insight. "We're committed to ensuring our products always comply with new certifications and clinical standards."

MIPS calculates a Composite Performance Score (CPS) based on four performance categories: Quality, ACI, CPIA and Cost. Because each category has different weights per reporting year, MIPS calculators within MaximEyes EHR will assist Eligible Clinicians (ECs) to determine their total MIPS Composite Performance Score.

MaximEyes EHR MIPS Reports and Calculators include (see pages 2-5 for images):

- Advancing Care Information (ACI) Measures Report and ACI Points Calculator
- Composite Performance Score (CPS) Report and Estimation Calculator
- Clinical Practice Improvement Activities (CPIA) Report and CPIA Points Calculator
- Quality Measures Report and Quality Points Calculator
- Automated reporting for ACI, CPS, CPIA and Quality Measures

About First Insight Corporation: First Insight was founded in 1994 by Nitin Rai, president and CEO, to revolutionize and lead the eye care industry with MaximEyes, the most complete and customizable certified EHR and practice management software. MaximEyes is a comprehensive solution that improves clinical decision making, enhances patient care and empowers optometrists and ophthalmologists to operate an efficient and profitable practice. Get unmatched customer support in less than 30 seconds with a 98% satisfaction rating. www.first-insight.com
